WP 0: Coordination, **Outreach and Publicity**

Project Field 1: Assessment and Regulatory Aspects

WP 1-1: Technical Privacy and **Security Assessment**

CISPA (Lead), DKFZ

WP 1-2: Regulatory Data **Protection Assessment**

CISPA

WP 1-3: Compliance **Documentation and Audit**

CISPA, DKFZ (Lead)

Project Field 2: Enforcing privacy

WP 2-1: Trusted Federated **Algorithm Deployment**

CISPA, DKFZ (Lead)

WP 2-2: Private and Effective **Federated Learning**

CISPA (Lead), DKFZ

Project Field 3: Processing/Analytics

WP 3-1: Causality in Federated Learning

CISPA (Lead), DKFZ

WP 3-2: Federated Learning Schemes

CISPA, DKFZ (Lead)

Project Field 4: Attribution and Authorship Tracking

WP 4-1: Legal Analysis of **Attribution and Intellectual Property in Federated Workflows**

CISPA

WP 4-2: Authenticity of released **Statistics**

CISPA (Lead), DKFZ

Use Case

WP U1: Federated radiation therapy study

DKFZ

Research field: **Key technologies/Information**

Center:

CISPA

DKFZ

Project management

- Coordination
- Workshops/Meetings
- Outreach / Helmholtz networking

Legal/regulatory research

- Security / requirements assessment based on use cases
- Convoys methodical developments to ensure explainability and accountability

Methodical research

- Research and development on topics that are important for trustworthy federal data analytics
- Guided by the assessments of field 1 and requirements of the use cases
- Field 2: technical means that enforce privacy and ensures trustworthiness in a federated analytics scenario
- Field 3: ensure trustworthy results, gained by federated analytics, as well as causality and uncertainty quantification
- Field 4: track/proof the usage of data or resources in federated analysis without violating privacy requirements

Use Case / Evaluation

- Defines the requirements for federated analytics
- Serves as continuous field 2 test bed
- Conducts feasibility studies and evaluation
